CAREER OBJECTIVE

I'm a passionate Front-End Developer with a strong foundation in modern web technologies like Next.js and Tailwind CSS, and growing expertise in Cloud Computing with hands-on knowledge of AWS (EC2, S3, IAM, and CloudWatch). Eager to apply my skills in front-end development and cloud infrastructure to build scalable, efficient, and secure web applications while continuously enhancing IT and Cloud Support and advanced cloud deployment and DevOps practices.

EDUCATION

B.Tech – Computer Science A.I.M.T, Lucknow | AKTU University Year: 2024

SKILLS

Cloud & DevOps

- **AWS:** EC2, S3, IAM, CloudWatch, Lambda (basic)
- **Azure:** VMs, Blob Storage, Azure Monitor & Log Analytics, AAD
- **GCP:** Compute Engine, Cloud Storage
- **Docker:** container fundamentals, image & container management
- **CI/CD:** GitHub-based workflows, automated deployments (basic)
- **Monitoring & Logs:** CloudWatch metrics and logs
- **Version Control & Deployment:** Git, GitHub, Vercel, Netlify

Systems & Networking

- **Linux:** Ubuntu (basic server administration)
- **Operating Systems:** Linux, Windows
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, basic troubleshooting

Web Development (Supporting Skill)

- React js, Next js, Node js, Tailwind CSS

WORK EXPERIENCE

Front-End Developer — Admire Softtech

- Developed responsive, user-friendly interfaces using React, Next.js, and Tailwind CSS, ensuring optimal performance across devices.
- Collaborated with cross-functional teams, including designers and back-end developers, to deliver seamless web experiences.
- Continuously optimized web applications for speed, performance, and accessibility.
- Assisted in the integration of APIs, enhancing functionality and user interactions.

Web Developer (Internship – 6 Months) — Ducat, Noida

- Designed and deployed a car rental web app using HTML, CSS, and JavaScript, reducing booking time by 50%.
- Collaborated with team members to gather user feedback, refine features, and optimize the codebase.
- Worked with a team of interns and senior developers to implement new ideas and improvements, earning recognition as a top performer.
- Maintained and updated web applications to meet user and business requirements.

PROJECTS

Travel & Booking Websites

- https://mdpet.in
- https://admireholidays.com

Description:

- Built dynamic travel booking platforms using **Next.js and Tailwind CSS**.
- Implemented responsive UI, package filtering, booking workflows, and review sections.
- Integrated APIs for real-time travel data and user interactions.

TravelnWorld

- https://travelnworld.com

Description:

- Developed a dynamic travel booking application using **React.js and Tailwind CSS**.
- Implemented destination filtering, package search, and real-time content updates.
- Collaborated on API integration to fetch live travel deals.
